I'll find it later today and email it to you along with the workplan submitted by Republic to construct it. But for starters, go to epaossc.org/countywide as I believe the AOC is posted there in the 'documents' section.

Subject: West Lake Landfill: trench design SOW

Paul, Republic will proceed with building the trench to contain the subsurface oxidation event in the Bridgeton Sanitary Landfill. Construction of this trench is now under EPA authority, so we'll be writing an order to cover the work. I would like to get from you a SOW for the trench design and construction from your experience with Countywide so that I can use it for our order. This order is on a short timeline, so I'd appreciate it if you could send this to me ASAP.

Sincerely,
Daniel R. Gravatt, PG

Principles and integrity are expensive, but they are among the very few things worth having.

RV order. Call Paul rouche r5 to get his assistance.

Ps. Republic went to the reporters today
